Dr. Joshua Lederberg
Department of Genetics
Stanford University
School of Medicine
Palo Alto, California

Dear Dr. Lederberg:

I request permission to use the material specified below, in a book I am preparing entitled THE NEW MICROBIOLOGY, and in future editions or revisions thereof, to be published by the McGraw-Hill Book Company, Inc.:

Gene recombination in the bacterium Escherichia coli,
by E.L. Tatum and Joshua Lederberg. Jour. Bact.
53:673-684. 1947.

The publisher of the Journal of Bacteriology has given permission conditional upon your approval.

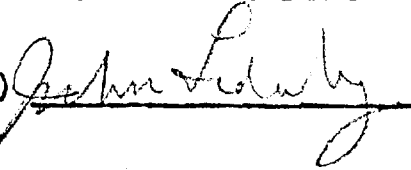

The articles used in the book will be abridged considerably. It is planned, for instance, to delete the summaries, the bibliographies, acknowledgments, and, if present, most or all of the details of methods and sources of materials.

Your prompt consideration of this request will be greatly appreciated. A release form is given below for your convenience. The duplicate is for your files.

Very truly yours,

JOHN E. FLYNN

do not
I (we) hereby grant permission for the use of the material requested above.

I would be happy to approve a verbatim use, but not an attribution for a condensation. I have not seen and might be a distortion. If you insist on a condensation, either let me see it or paraphrase it all for me.
